PROFESSIONAL EXPERIENCE

Shenwan Hongyuan Securities | Industry Research, Defense Industry Group Mar – Jun 2026

- Built and maintained standardized databases of operational, financial, and business metrics for listed defense companies (Western Superconducting, AVIC Xi'an Aircraft, Tunan Co.) to support timely fundamental analysis
- Conducted in-depth research on supply chain structures, competitive landscape, and company fundamentals using public filings, financial reports, and industry materials to inform investment views
- Contributed to industry deep-dive reports, weekly updates, and quarterly reports through data collection, chart creation, and written analysis

Huachuang Securities Co., Ltd. | Research Institute, Machinery Group Apr – Aug 2025

- Contributed to 6 in-depth industry reports, performing data collection, trend analysis, and developing industry comparison frameworks via Wind database extraction and backtesting
- Tracked listed companies' financial reports and policy developments; analyzed industry cycles to support research analysts' decision-making; maintained internal databases

Tianfeng Securities Asset Management | Marketing Management Department Aug – Sep 2024

- Compiled daily/weekly macro and market reports; co-authored fixed income & credit market weeklys, independently handling data collection, charting, and quality verification
- Supported roadshow decks and promotional materials; reviewed corporate ownership structures and compliance documents; assisted with public mutual fund operations

Bank of China | Credit Market Department Jan – Feb 2024

- Assisted credit managers with client reception, loan application materials, credit information collection, and coordination of approvals/disbursements for SME clients
- Reviewed SME documents for completeness/authenticity; analyzed bank statements to calculate actual annual revenue and collateral values; verified transaction records

RESEARCH PROJECTS

Stock Market Simulation Investment & Analysis | Core Team Member Sep 2024 – Jan 2025

- Managed $100,000 simulated portfolio in U.S. equities (JPM, BAC concept stocks), achieving 30% return over five trading rounds; analyzed market movements in global and domestic contexts

International Trade / Macroeconomics / Microeconomics Research | Project Lead (3 projects)

- Led English-language research analyzing China–India trade structure changes, China–Japan economic risks (fiscal deficits, policy responses), and microeconomic case studies (Volkswagen supply/demand elasticity)

LEADERSHIP & ACTIVITIES

President, Board Game Club Jun 2023 – Sep 2025

- Led recruitment of 400+ members via 4 campus events (1,500+ attendees); organized "Werewolf Campus Cup" competition; managed operations, sponsorships, and school liaison

Volunteer, 2024 Malaysia–China Summit Dec 2024

- Provided on-site interpretation, VIP reception, logistics coordination, and facilitated business connections between Chinese and Malaysian companies
